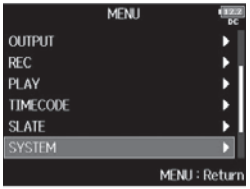
Quickly adjusting fader/pan settings with input trim knobs (Trim Knob Option)

The input trim knobs can be used to quickly adjust the fader and pan settings of each track.

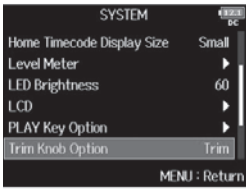
Setting the input trim knob function

1. Press MENU.

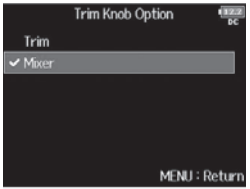
2. Use ◯ to select SYSTEM, and press ◯.



3. Use ◯ to select Trim Knob Option, and press ◯.



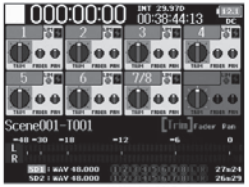
4. Use ◯ to select Mixer, and press ◯.



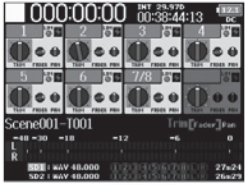
Quickly adjusting fader/pan settings with input trim knobs (Trim Knob Option) (continued)

Adjusting fader and pan settings with input trim knobs

1. **Open the mixer on the Home Screen.**



2. **Use to select the parameter you want to adjust, and press .**



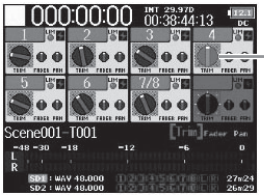
3. **Use of the track you want to adjust to change its setting value.**

HINT

The position of the knob on the display always shows the current setting.

NOTE

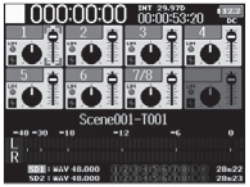
For example, after changing the parameter to be adjusted, if the positions of and the knob on the display are different, the knob on the display will appear gray, and moving will not affect that setting. In this case, if you adjust to match the position of the knob on the display, the display knob and will be relinked, and you will be able to use to adjust its setting value again.



Moving the previously recorded take to the FALSE TAKE folder

If the just recorded take was a failure, you can use a shortcut to move the recording to the FALSE TAKE folder.

1. **Open the Home Screen.**



2. **Press and hold** ⏮.

HINT

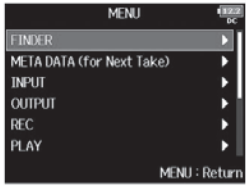
- Moving the take recorded most recently to the FALSE TAKE folder will reduce the number of the take recorded next by 1.
- Even during recording, you can move the previously recorded take to the FALSE TAKE folder.

3. **Use** ◯ **to select Yes, and press** ◯.

Deleting takes in the FALSE TAKE folder

1. Press MENU.

2. Use ◯ to select FINDER, and press ◯.



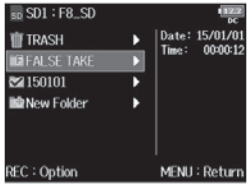
3. Use ◯ to select the SD card to use, and press ◯.

▶ Continue to one of the following procedures.

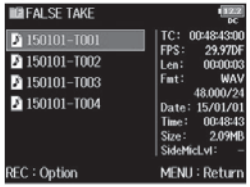
Deleting selected takes in the FALSE TAKE folder ..... P. 06
Emptying the FALSE TAKE folder ..... P. 07

Deleting selected takes in the FALSE TAKE folder

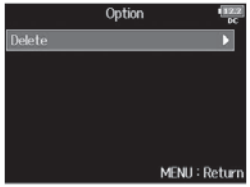
4. Use ◯ to select FALSE TAKE, and press ◯.



5. Press ●.

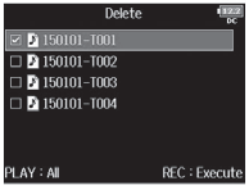


6. Use ◯ to select Delete, and press ◯.



7. Use ◯ to select the take to delete, and press ◯.

Press MENU to cancel deletion.



HINT

You can press ►/II to select/deselect all the takes that are currently shown.

8. Press ●.

9. Use ◯ to select Yes, and press ◯.

NOTE

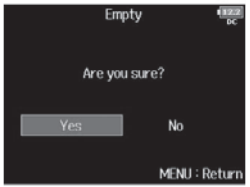
Deleted takes are not immediately erased from the SD card. They are moved to the TRASH folder.

Emptying the FALSE TAKE folder

4. Use ◯ to select FALSE TAKE, and press ●.

5. Use ◯ to select Empty, and press ◯.

6. Use ◯ to select Yes, and press ◯.



NOTE

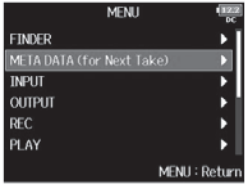
Deleted takes are not immediately erased from the SD card. They are moved to the TRASH folder.

Setting how scene numbers advance (Scene Increment Mode)

You can set how scene numbers advance.

1. **Press [MENU].**

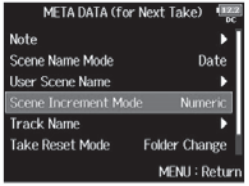
2. **Use ◯ to select META DATA (for Next Take), and press ↑.**



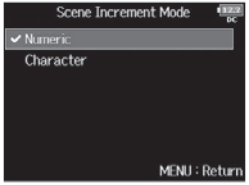
NOTE

MENU > REC > Next Take in the previous version has been changed to MENU > META DATA (for Next Take) in Version 2.0.

3. **Use ◯ to select Scene Increment Mode, and press ↑.**



4. **Use ◯ to select how scene numbers advance, and press ↑.**



Setting value	Explanation
Numeric	Press [■] + [▶▶|] on the Home Screen to increase the scene number by one. Example:Scene → Scene1 → Scene2 → ... → Scene9999
Character	Press [■] + [▶▶|] on the Home Screen to advance the capital letter at the end of the scene name by one. If the scene name does not have a capital letter at its end, one will be added. Example: Scene1 → Scene1A → Scene1B → ... → Scene1Z → Scene1AA → Scene1AB → ...

HINT

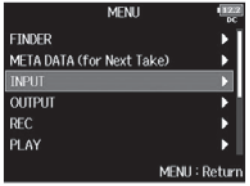
On the Home Screen, [■] + [▶▶|] can be used to advance the scene number by one.

Adjusting the input levels of multiple tracks simultaneously (Trim Link)

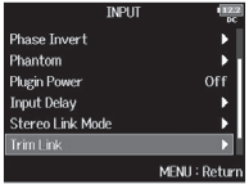
The input levels of multiple tracks can be linked and adjusted at the same time.

1. Press MENU.

2. Use ◯ to select INPUT, and press ◯.



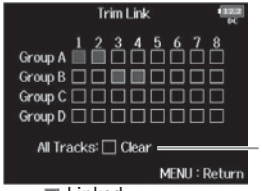
3. Use ◯ to select Trim Link, and press ◯.



HINT

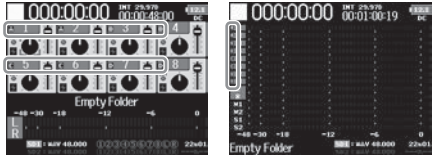
You can also open the Trim Link screen from the Home Screen by pressing 3 while pressing and holding ■.

4. Use ◯ to select a track to link, and press ◯.



HINT

- You can use ◯ for the first track in a link group to adjust all the input levels within that group at the same time.
- Icons for group names are shown next to linked tracks.



NOTE

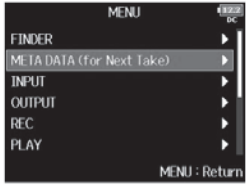
- A track cannot be in more than one group at a time.
- The input levels of tracks set to MS Stereo Link will also be linked if those tracks are put into groups.
- The input levels of tracks that have a mic capsule connected will not be linked even if those tracks are put into groups.

Changing the track name of the next take recorded (Track Name)

The track name set with the following procedure will be given to the next recorded track.

1. **Press [MENU].**

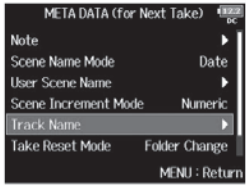
2. **Use ◯ to select META DATA (for Next Take), and press ◯.**



NOTE

MENU > REC > Next Take in the previous version has been changed to MENU > META DATA (for Next Take) in Version 2.0.

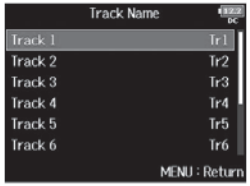
3. **Use ◯ to select Track Name, and press ◯.**



HINT

On the Home Screen, [■] + [2] can be used to open the Track Name screen.

4. **Use ◯ to select the track, and press ◯.**



▶ Continue to one of the following procedures.

Editing the track name ..... P. 11
Selecting a track name from the history list..... P. 11

Editing the track name

5. **Use ◯ to select Edit, and press ◯.**

6. **Edit the track name.**

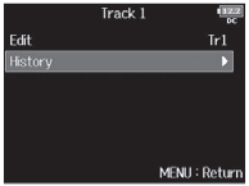
See "Character input screen" in the F8 Operation Manual for how to input characters.

NOTE

The track name is written to the <TRACK> <NAME> metadata.

Selecting a track name from the history list

5. **Use ◯ to select History, and press ◯.**



6. **Use ◯ to select the item to use, and press ◯.**

NOTE

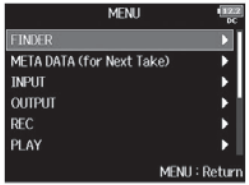
The history list will be erased if the Factory Reset function is used.

Checking and editing track name data saved in takes

You can edit track name data (metadata) saved in takes

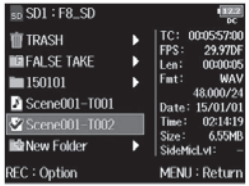
1. **Press** MENU.

2. **Use** ◯ **to select FINDER, and press** ◯.

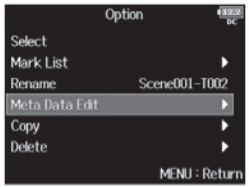


3. **Use** ◯ **to select the take, and press** ●.

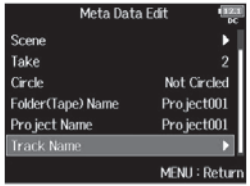
This opens the Option Screen. See "Take and folder operations" in the F8 Operation Manual for how to use the Finder.



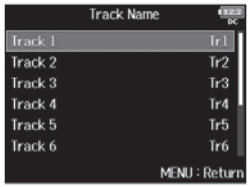
4. **Use** ◯ **to select Meta Data Edit, and press** ◯.



5. **Use** ◯ **to select Track Name, and press** ◯.



6. **Use** ◯ **to select the track, and press** ◯.



▶ Continue to one of the following procedures.

Checking and editing track names ..... P. 13
Selecting a track name from the history list..... P. 13

Checking and editing track names

7. **Use ◯ to select Edit, and press ◯.**

8. **Edit the track name.**

See "Character input screen" in the F8 Operation Manual for how to input characters.

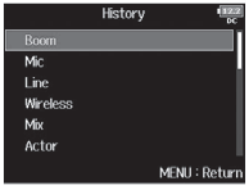
NOTE

The track name is written to the <TRACK> <NAME> metadata.

Selecting a track name from the history list

7. **Use ◯ to select History, and press ◯.**

8. **Use ◯ to select the item to use, and press ◯.**



NOTE

The history list will be erased if the Factory Reset function is used.

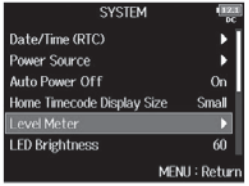
Showing track names on level meters (Track Name View)

The track names set with the "Track Name" setting (→ P. 10) can be shown on the level meters.

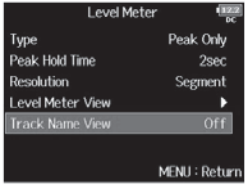
1. Press MENU.

2. Use ◯ to select SYSTEM, and press ◯.

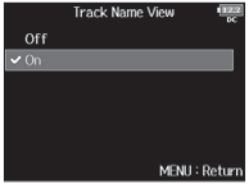
3. Use ◯ to select Level Meter, and press ◯.



4. Use ◯ to select Track Name View, and press ◯.



5. Use ◯ to select On, and press ◯.



Setting value	Explanation
Off	The track names are not shown on the level meters. On	The track names set with the "Track Name" setting (→ P. 10) are shown on the level meters. 
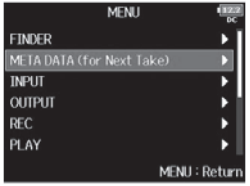
Setting the take name format (Take Name Format)

You can set the take name format used when recording.

1. Press MENU.

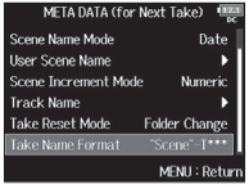
2. Use ◯ to select META DATA (for Next Take), and press ◯.



NOTE

MENU > REC > Next Take in the previous version has been changed to MENU > META DATA (for Next Take) in Version 2.0.

3. Use ◯ to select Take Name Format, and press ◯.

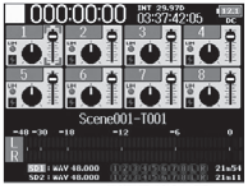


4. Use ◯ to select the format, and press ◯.

Setting value	Explanation
"Scene"-T***	[Scene]-T*** Take number Scene name Example: Scene001-T001
"Scene"_***	[Scene]_*** Take number Scene name Example: Scene001_001

Adjusting the L/R track volume

1. **Open the Home Screen.**



2. **Press ■ + 6.**

NOTE

Shortcuts are disabled during playback.

3. **Use ◯ to adjust the volume.**

NOTE

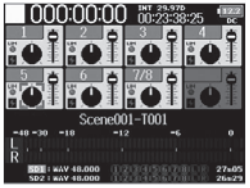
- Volume settings affect the results of recording.
- If only the L/R track is recorded, the L/R track fader setting for the take will be saved as 0dB.

4. **When finished adjusting, press MENU or ■ + 6.**

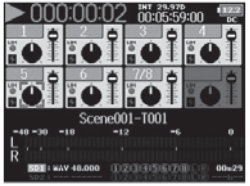
Monitoring the playback signals of specific tracks during playback

You can monitor the playback signals of specific tracks using SOLO mode.

1. **Open the Home Screen.**

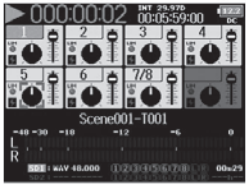


2. **Press ►/II to start playback.**



3. **Press PFL on the tracks that you want to monitor.**

The background colors for the selected tracks will become green, and their track indicators will light orange.



NOTE

SOLO mode can only be used with tracks that can be played back (indicators lit green).

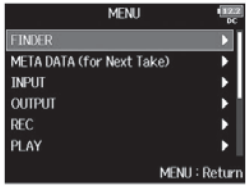
4. **Press PFL of a track being monitored to stop monitoring it.**

Writing sound reports (Create Sound Report)

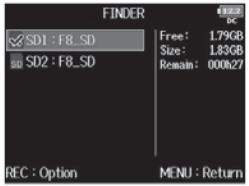
A sound report includes information about recording times and takes.
Reports can be written as CSV format files (F8_[folder name].CSV).
You can edit comments written in sound reports.

1. **Press MENU.**

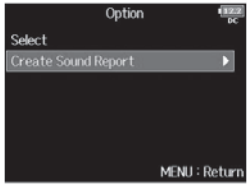
2. **Use ◯ to select FINDER, and press ◯.**



3. **Use ◯ to select the folder or SD card for which you want to create a sound report, and press ●.**



4. **Use ◯ to select Create Sound Report, and press ◯.**

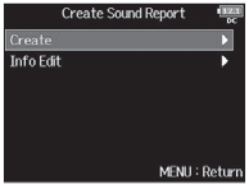


▶ Continue to one of the following procedures.

Writing a sound report ..... P. 19
Editing comments ..... P. 19
Selecting comments from the history list ..... P. 20

Writing a sound report

5. **Use to select Create, and press .**



6. **Use to select Yes, and press .**

This writes the sound report inside the selected SD card or folder.

NOTE

- Only information about takes in the folder or SD card is written in the sound report.
- If a sound report file with the same name already exists, it will be overwritten. Please use caution.

Editing comments

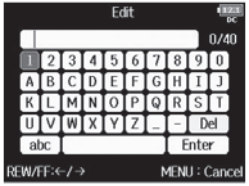
5. **Use to select Info Edit, and press .**

6. **Use to select Comments, and press .**

7. **Use to select Edit, and press .**

8. **Edit the comment.**

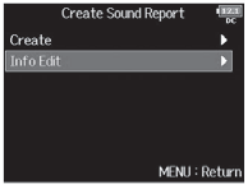
See "Character input screen" in the F8 Operation Manual for how to input characters.



Writing sound reports (Create Sound Report) (continued)

Selecting comments from the history list

5. **Use ◯ to select Info Edit, and press ◯.**



6. **Use ◯ to select Comments, and press ◯.**

7. **Use ◯ to select History, and press ◯.**

8. **Use ◯ to select the item to use, and press ◯.**

HINT

The history list will be erased if the Factory Reset function is used.

Checking the Shortcut List

In version 2.0, shortcuts have been added to allow quick access to various functions.
See the “List of shortcuts” (→ P. 22) for information about the shortcut functions.

1. **Press [MENU].**

2. **Use ◯ to select SYSTEM, and press ◯.**

3. **Use ◯ to select Shortcut List, and press ◯.**

List of shortcuts

Home Screen

Shortcut	Explanation
Press and hold ■	Show the name that will be given to the next take recorded. Example: Scene001-T002
■ + ⏭	Advance the scene number by 1 (when the Home Screen is open).
■ + PFL	Disable the operation of all input trim knobs.
Press and hold ⏮	Move the previously recorded take to the FALSE TAKE folder (when the Home Screen is open).
■ + 1	Open the MENU > META DATA (for Next Take) > **User Scene Name** screen.
■ + 2	Open the MENU > META DATA (for Next Take) > **Track Name** screen.
■ + 3	Open the MENU > INPUT > **Trim Link** screen.
■ + 5	Clear the level meter clipping indicators.
■ + 6	Open the L/R track fader settings screen.

Mixer Screen

Shortcut	Explanation
Press and hold ◯	Reset the selected pan/fader to the default value (when the Home Screen mixer is open). If already set to its default value, selecting a fader mutes the track.

Character input screen

Shortcut	Explanation
Press and turn ◯	Move the cursor vertically on the character input screen keyboard.
■ + ⏮	Delete a character on the character input screen.
■ + ⏭	Move the cursor to "Enter" on the character input screen keyboard.

Routing screen

Shortcut	Explanation
Press and turn ◯	Move the cursor vertically
