# Uploading to iCloud

Recorded files can be selected and uploaded to iCloud. Using Auto Sync, files can be automatically uploaded to iCloud after recording finishes.

## NOTE

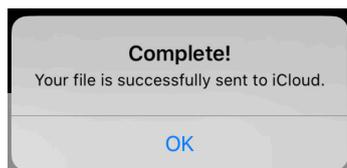

Before deleting recorded files from Handy Recorder, confirm that they have completed uploading to iCloud.

## Selecting recorded files and uploading them to iCloud

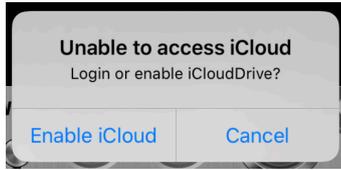

1. Tap **FILE** on the Main Screen.
2. On the FILE screen, select a file and tap .
3. On the SHARE screen, tap **iCloud**.

A message will appear and the recorded file will be uploaded.

**NOTE**

The following message appears if the iCloud Drive is unavailable.

Tap **Enable iCloud**, and activate iCloud Drive in the iOS device settings.

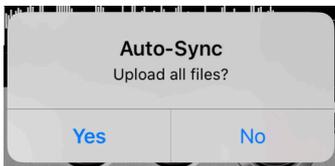

**Automatically uploading recorded files to iCloud**

When Auto Sync is enabled, files will be uploaded automatically after recording completes.

1. Tap  **Auto Sync** on the Main Screen.

When Auto Sync is enabled, a message will appear.

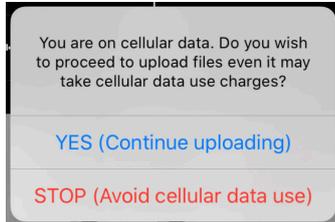

2. Tap **Yes** or **No**.

<b>Yes</b>	All recorded files will be uploaded.
<b>No</b>	Newly recorded files will be uploaded.

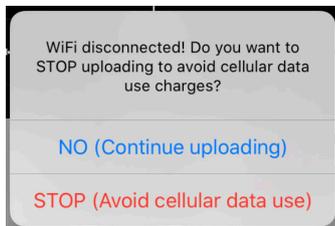

## NOTE

- When **Yes** is tapped, already uploaded files will not be uploaded again. If a file with the same name has different recording content, however, a number will be added to the end of the file name and it will be uploaded.
- If Auto Sync is enabled when cellular data is being used, the following message will appear.

Tapping **Yes** to continue uploading could result in data transmission charges, so choose this option with caution.

- When Auto Sync is enabled, if data transmission switches from Wi-Fi to cellular data, the following message will appear.

Tapping **No** to continue uploading could result in data transmission charges, so choose this option with caution.

- Messages related to transmission charges will appear in English, Japanese, French, German, Italian or Spanish according to the Language & Region settings on the iOS device.
